

# The Champion Fiberglass Conduit Calculator

It's never been so easy to compare material and installation costs for RTRC conduit with those of other rigid conduit materials – the Conduit Calculator makes it easy to compare costs and see which conduit will help build the most project savings.

You need:

- Hourly rate
- Champion Fiberglass conduit type
- Length to install

## 1

After you've entered your hourly rate, choose the Champion Fiberglass conduit you'd like to use for comparison.

### Conduit Calculator

Compare material and installation costs using this rigid conduit calculator tool. Input average hourly rate, conduit diameter to be used, and length to install, then choose one conduit material to compare to fiberglass conduit (RTRC). Submit to estimate possible total savings for your next project.

---

**Input hourly rate** (in USD)

**Compare RTRC to** (select one)

PVC-coated steel

GRC

Aluminum

Stainless steel

**Select fiberglass conduit type**

✓ Select fiberglass conduit type

Champion Duct® SW/MW Type

Champion Haz Duct® XW Type

Results are based on the 2017 – 2018 NECA Manual of Labor Units and regularly updated conduit list prices.

## 2

Depending on whether you chose Champion Duct® or Haz Duct® for comparison, you'll be prompted to:

- Choose from a range of diameters for installation.
- Enter the length to be installed.
- Choose the material for comparison – the Conduit Calculator includes regularly updated pricing information for PVC-coated steel, GRC, Aluminum, and stainless steel conduit.
- Once you've entered all information, hit the "Submit" button.
