

4. Fire and Explosion Hazard Data

Flash Point: 245 to 530 °C (Auto Ignition): (% by volume): lower - 1 upper - 13

Fire Extinguishing Media: Water fog, foam, dry chemicals

Special Fire Fighting Procedure: Use water fog to cool container.

Unusual Fire and Explosion Hazards: Dangerous when heated.

Hazardous Products of combustion: Carbon dioxide, carbon monoxide.

5. Hazards and First Aid

Threshold Limit Values: OSHA or ACGIH limits have been established

Eye: Irritating to eyes: If contacted flush eyes with plenty of water for 15 minutes while holding eyelids open. Get medical attention.

Skin: Moderately irritating: If contacted remove contaminated clothes/shoes and wipe excess from skin, flush skin with water. Follow by washing with soap and water. If irritation occurs-get medical attention.

Ingestion: If ingested get medical help. Do not induce vomiting.

Inhalation: Not likely to be a hazard. If necessary remove victim to fresh air and if victim is not breathing restore and support breathing.

6. Reactivity

Stability: Stable

Hazardous Decomposition Products: Carbon dioxide, carbon monoxide.

7. Spill or Leak Procedures

Remove all sources of ignition and use inert absorbent materials. Avoid breathing fumes.

Waste Disposal (insure conformity with local disposal regulations): Place in an appropriate disposal facility in compliance with local regulations.
