Champ vs. Burn Through

Burn through, or as Champ knows him, "Torchy," can bring your project to a complete stop... costing you valuable time and money. He may look little, but Torchy packs a high-friction, high-heat punch. Champ, with the help of Champion Fiberglass, stops Torchy in his tracks, staying cool under pressure every time. Your conduit stays intact. Your installation stays on track. And burn through is a thing of the past.

Orders of 100 Pieces or Less Ship Within 48 Hours

Partner with Champ, and you'll be the hero. Champion Fiberglass is offering 48-hour or less shipping for our most popular elbows. Choose from plain-ended or PVC deep-socket coupling transitions in the above sizes.

XPRESS ELBOWS

Fiberglass - In a Class of Its Own

Champion Fiberglass Elbows are being used in more applications than ever - utilities, data centers and wastewater treatment plants to name a few. So banish burn-through and tally up the scorecard.

You Can Have it All

According to NECA, fiberglass installation labor time is a fraction of what it is for galvanized rigid steel or PVC coated - especially at larger diameters. Now you can have it all: low cost, superior quality and FAST delivery.

2015-2016 MANUAL OF LABOR UNITS (NORMAL INSTALLATION - MAN/HR.)

CONDUIT SIZE	SCH 40	SCH 80*	ALUMINUM	STAINLESS STEEL	GRC*	FIBERGLASS	PVC COATED
3/4"	.22	.24	.3	.53	.4	.5	.6
1"	.25	.28	.35	.67	.5	.6	.7
1-1/4"	.32	.36	.4	.8	.6	.63	.8
1-1/2"	.4	.46	.5	1	.75	.67	1
2"	.5	.58	.75	1.3	1	.75	1.2
2-1/2"	.5	.69	1	2	1.5	.82	1.75
3"	.7	.84	1.3	2.67	2	.9	2.25
3-1/2"	.85	N/A	1.6	3.33	2.5	1.05	2.75
4"	1	1.2	2	4	3	1.2	3.25
5"	1.25	1.5	2.5	5.3	4	1.35	4.5
6"	1.5	1.8	3	6.67	5	1.5	5.5

* ADD 20% TO GRC AND SCH 80 FOR LONG SWEEP ELBOWS

Our full line of elbows are available in:

- » Sizes 3/4" to 12"
- » Other radii, including very large radii
- » Other angles as standard (11-1/4°, 22-1/2°, 30°)
- » Below ground or above ground
- » Plain end for fiberglass conduit systems

(Promotion applies only to sizes listed on front.)

- ▶ Champion Fiberglass manufactures the most dependable conduit, strut and hangers in our class. We go farther, exceed quality standards and create installations that are built to last. Champion Fiberglass helps you Do More on every project.
