

## Champion Fiberglass Adhesive Guns and Epoxy Adhesive Tubes

### EPOXY ADHESIVE TUBES - NOW IN THREE SIZES

The Champion Mix two-part (1:1 mix ratio) system is a non-carcinogenic epoxy resin adhesive system designed to permanently bond fittings and joints of fiberglass reinforced epoxy conduit. It is also designed for use with pultruded polyester and vinyl ester components. Each cartridge system contains resin, hardener, and one plastic static mixer.

The epoxy adhesive is now available in three convenient dispensing tube sizes.  
(See reverse for adhesive gun options.)

Save time and increase efficiency -  
Champion Fiberglass is your single  
source for epoxy, adhesive guns,  
and lightweight fiberglass conduit.

See chart below for variation part numbers.

PART NUMBER	SIZE	TEMPERATURE RANGE	APPROXIMATE CURING TIME
CM-570	<b>50 ml (1.7 oz)</b>	70° F (21° C) and above	30 – 45 minutes
CM-570-FG		70° F (21° C) and above	20 – 30 minutes
CM-570-SFG		70° F (21° C) and above	3 – 7 minutes
CM-540		40° – 70° F (4° – 21° C)	30 – 45 minutes
CM-540-FG		40° – 70° F (4° – 21° C)	20 – 30 minutes
CM-540-SFG		40° – 70° F (4° – 21° C)	3 – 7 minutes
CM-1070	<b>80 ml (2.7 oz)</b>	70° F (21° C) and above	30 – 45 minutes
CM-1070-FG		70° F (21° C) and above	20 – 30 minutes
CM-1070-SFG		70° F (21° C) and above	3 – 7 minutes
CM-1040		40° – 70° F (4° – 21° C)	30 – 45 minutes
CM-1040-FG		40° – 70° F (4° – 21° C)	20 – 30 minutes
CM-1040-SFG		40° – 70° F (4° – 21° C)	3 – 7 minutes
CM-2070	<b>300 ml (10 oz)</b>	70° F (21° C) and above	30 – 45 minutes
CM-2070-FG		70° F (21° C) and above	20 – 30 minutes
CM-2070-SFG		70° F (21° C) and above	3 – 7 minutes
CM-2040		40° – 70° F (4° – 21° C)	30 – 45 minutes
CM-2040-FG		40° – 70° F (4° – 21° C)	20 – 30 minutes
CM-2040-SFG		40° – 70° F (4° – 21° C)	3 – 7 minutes

# Adhesive Guns

An adhesive gun is required for applying the adhesive; adhesive guns are available in both manual and battery-powered options. Champion Fiberglass adhesive guns are available for all three adhesive tube sizes: 50 ml (1.7 oz), 80 ml (2.7 oz), and 300 ml (10 oz).

## MANUAL ADHESIVE GUNS

**50 ml (1.7 oz)**

PART NUMBER: CM-AG-5

**80 ml (2.7 oz)**

PART NUMBER: CM-AG-8

**300 ml (10 oz)**

PART NUMBER: CM-AG-20

## BATTERY-POWERED ADHESIVE GUN

Champion Fiberglass 18V Li-Io battery-powered adhesive guns are only available for the 300 ml (10 oz) adhesive tube.

This powerful 18V cordless drive system is supplied with a sturdy 300 ml (10 oz) dispensing cartridge carriage. Other features include:

- **Flow control for instant drive disengagement when trigger is released**
- **Lightweight ergonomic design to reduce wrist and arm strain**
- **Rapid, 30-minute battery charging**
- **Battery fuel gauge indicates battery power level**

All battery-powered adhesive guns are supplied fully assembled; each comes with one (1) 18V Li-Io battery and one (1) 18V charger.
