

CHAMPION FIBERGLASS CONDUIT.

A JACKPOT OF SUBSTANTIAL SAVINGS.

With today's rising labor costs, it's great to know there's an electrical conduit that can help you save big on projects - in labor, material and time - without sacrificing strength or performance. Plus, Champion Fiberglass conduit is compatible with other conduit types.

In some cases, fiberglass conduit labor rates are one-sixth that of PVC-coated steel conduit. Now that's a sizable chunk of cost savings.

Realize the savings!
