

THIS LIGHTWEIGHT IS ALWAYS A WINNER.

In a world of heavy, inefficient conduit, this lightweight contributes to project wins.

When you compare 100-foot lengths of conduit by material, it's easy to see that Champion Fiberglass is the lightest option for many diameters – without sacrificing rigidity. Add on Champion Fiberglass's newly extended support spacing distances, and you've got winning savings.

100-foot length of Champion Duct® fiberglass conduit:
